### □ Professional Summary

Experience in Designing, Developing, and Maintaining scalable web applications in **AngularJS, ReactJS, ASP.NET (C#), Java, Springboot** architectures. Highly skilled in both **frontend and backend integration, UI/UX enhancement, database optimization, and team leadership**. Demonstrates a consistent ability to deliver secure, maintainable, and high-performance solutions that align with complex business requirements. Strong foundation in **software engineering principles, agile development methodologies**, and modern DevOps practices.

### □ Technical Skills

- **Frontend:** AngularJS, ReactJS, JavaScript (ES6), HTML5, CSS3, Bootstrap
  - **Backend:** ASP.NET, C#, Java
  - **Databases:** SQL Server, MySQL
- **Tools:** Visual Studio, VS Code, Git, SQL Server, MySQL Workbench
- **Cloud:** AWS (Basics)

### □ Professional Experience

#### Technical Developer

#### Mograsys Technologies Pvt. Ltd. – Pune

*Sep 2017 – Jul 2025*

- Developed and maintained full-stack ERP & PPN solutions using AngularJS, Java, Spring Boot, ReactJs, .NET, and SQL.
- Created responsive UIs with enhanced UX using HTML5, CSS3, Bootstrap, and JavaScript (ES6).
- Built and optimized complex SQL queries, improving system performance and data reporting.
- Integrated dynamic form modules to streamline internal operations and data entry.
  - Led junior developers through mentorship and knowledge-sharing sessions.
  - Managed code versioning and collaboration via GitHub.
  - Actively resolved critical bugs and system issues to maintain stability.

#### Intern – Software Developer

#### BiCS Info Solutions Pvt. Ltd. – Pune

*Apr 2017 – Sep 2017*

- Assisted in the development of E-Recruitment modules and forms using AngularJS.
  - Built interactive UI components with HTML, CSS, and Bootstrap.
  - Participated in SQL database design and performance optimization.
  - Supported senior developers in debugging, QA testing, and technical documentation.

## □ Education

- **Master of Computer Applications (MCA)**  
Abhinav Education Society, Pune University – 2016
- **Bachelor of Computer Science (BCS)**  
Abhinav Education Society, Pune University – 2013

## □ Key Projects

### ● □ ERP System

*Role: Full Stack Developer | Tech: AngularJS, .NET (C#), SQL Server*

- Designed and implemented a full-stack ERP solution integrating HR, finance, and operations modules.
- Delivered scalable and secure architecture, improving performance and data accessibility.
- Reduced overall process time by 50% through automation and real-time reporting.

### □ PPN Project (Production & Procurement Network)

*Role: Full Stack Developer | Tech: ReactJs, Java, Spring Boot, SQL Server*

- Built a custom workflow automation system for managing production and procurement lifecycles.
- Enabled dynamic form handling, approval flows, and inventory synchronization.
- Achieved a 40% reduction in operational process time and enhanced cross-departmental visibility.

### □ E-Recruitment System (Internship)

*Role: Frontend Developer Intern | Tech: AngularJS, Bootstrap, SQL*

- Developed intuitive, responsive forms and interfaces to improve applicant tracking efficiency.
- Supported backend SQL logic and data flow optimization under senior supervision.
- Enhanced HR operations by simplifying candidate intake and tracking.
